For Him *Watch Boxes*

You can tell a lot about a person and their personality by their watch. Some men own one single watch that they wear every day, while others opt for a growing collection of amazing timepieces designed for different occasions. But one thing is certain: every watch connoisseur possesses a luxury watch box that shows off their increasing collection. If you collect watches, then you understand how significant a quality watch box can be.

Preserve your most cherished timepieces with our exceptional watch boxes. Choose from a variety of styles, materials and sizes and order online for worldwide delivery.

A Heritage of Excellence

Rapport is a family run business with more than a century of expertise in the horological market. The company was founded in 1898 by Maurice A. Rapport who was an energetic young entrepreneur keen to make his mark on an age that thrived on innovation.

His skills lay in the manufacture of prestige timepieces and it did not take long for the name of Rapport to become a household name in clockmaking throughout the world.

The Company Founder, Maurice A. Rapport

Four generations later the business remains a private limited company and is proud to continue the philosophy laid down by the founder of innovation, quality and service. Investment in technology, craftsmanship and the quest to source the highest quality materials ensures Rapport's commitment to produce world class products.

Rapport was also a pioneer in the growing market of Automatic Watch Winders. Back in the 1980s our designers produced the blueprints for a range of revolutionary winders with advanced mechanics to keep automatic watches fully wound – and it was our craftsmen who made the cases come alive with the skill and expertise inherited from their clockmaking work.

Today the Rapport range of Watch Winders has gone from strength to strength, with more technologically advanced motor-drives and a wide range of styles and material combinations to choose from - it is a range our founding father would be proud to be part of, and we are sure there is a model that any lover of prestigious watches will be proud to own.
