## *A Heritage of Excellence*

Rapport is a family run business with more than a century of expertise in the horological market. The company was founded in 1898 by Maurice A. Rapport who was an energetic young entrepreneur keen to make his mark on an age that thrived on innovation.

His skills lay in the manufacture of prestige timepieces and it did not take long for the name of Rapport to become a household name in clockmaking throughout the world.

Four generations later the business remains a private limited company and is proud to continue the philosophy laid down by the founder of innovation, quality and service. Investment in technology, craftsmanship and the quest to source the highest quality materials ensures Rapport's commitment to produce world class products.

Rapport was also a pioneer in the growing market of Automatic Watch Winders. Back in the 1980s our designers produced the blueprints for a range of revolutionary winders with advanced mechanics to keep automatic watches fully wound – and it was our craftsmen who made the cases come alive with the skill and expertise inherited from their clockmaking work.

Today the Rapport range of Watch Winders has gone from strength to strength, with more technologically advanced motor-drives and a wide range of styles and material combinations to choose from - it is a range our founding father would be proud to be part of, and we are sure there is a model that any lover of prestigious watches will be proud to own.

## Rapport watch winders ~ the perfect match for the finest watches

### *A Pedigree of Craftsmanship & Design*

Attention to detail

Finished to perfection

Range of multi-winders

... and for the serious collector

RAPPORT have over one hundred years of association with fine timepieces and are proud to introduce their latest range of Watch Winders and Collector Boxes – the ultimate accessory for owners of automatic, self winding watches. Owners of such watches are generally people who appreciate the finer things in life and will recognise the quality and practicality of a Rapport watch winder.

Rapport's designers have created a range of winders to satisfy the modern, fashion conscious individual or those with more traditional tastes – there's a wide variety of wood finishes to choose from as well as subtle combinations of various metals and glass.

Hand crafted wooden cases come alive with the application of no less than eight coats of highly polished lacquer whilst the metal models are finished to perfection. Interiors are lined with a soft-touch fabric to offer protection to the watches and add to the elegance of the winders, while the fine tuned mechanism keeps your watch in prime condition.

People with several automatic watches are catered for in the Rapport collection with multiple winders being available for up to 12 watches. It's an easy task to add a watch to one of the independently controlled cups, to maintain all your timepieces in perfect order.

For the serious collector of prestige watches Rapport offers a selection of Collectors' Boxes to match the quality of the Watch Winders. The Collectors Boxes range is further testament to Rapport's reputation for quality, craftsmanship and service.

### *Why use a Watch Winder?*

An automatic watch has a mechanism that requires regular motion to keep the inner spring constantly charged, this motion is usually provided as it is worn. Once removed from the wrist the stored energy will not run indefinitely, the watch will need to be manually rewound and reset eventually.

Many automatic watches have additional features, or 'Complications', – date/time/lunar phase/world time etc. so the task of rewinding and recalibrating a watch if it runs down is best avoided.

Such watches are precision instruments and they actually benefit from exercise – if left unwound for long periods, internal lubricants can be lost from critical areas which will eventually lead to excessive wear on components and subsequent lack of accuracy.

Rapport Watch Winders have features designed to mimic the action of a watch being worn. The watch is held at a precise angle while being rotated and the winder can be set to run intermittently so that the watch is always permanently wound.

# *Rapport winders give automatic watches the exercise they need*

## *Designed with Form & Function in mind*

Rapport have called upon all the crafts developed in the company in four generations of manufacturing luxury horological products. We have married together the skills of the cabinet maker, the clockmaker and the electronic engineer to create a product range that is a perfect compliment in any home and yet performs a vital function for your automatic watches.

Our designers have been sensitive to the fashion needs in the modern home environment. Attention to detail in the construction of the cases and the quality and choice of materials used ensures the end product meets the highest standards of the most discerning customer.

## *The Mechanism*

Watches are held on a fully adjustable clip that has a leather covered soft pad and rubber grips and which slot into cups inset into the body of the winder. The cups are designed to always stop in the vertical position when stationary.

The winding motors are the highest quality and are powered using the DC adapter provided, most models also have battery backup.

Controls offer various modes of operation such as direction of rotation and timing options suitable for all automatic watches on the market today. Some models offer more advanced options with LED displays to indicate functions in operation, those are described in detail on the relevant pages.

## *Guarantee*

We are sure that you will be absolutely delighted with your Rapport Watch Winder yet, as with all Rapport luxury products we offer a full 24 month guarantee. Rapport are continually improving their range and although photographs and descriptions are correct at the time of this catalogue going to press, we reserve the right to alter the specification of any model.

## *The Design Brief*

All Rapport Watch Winders are created to fulfill the following criteria.

- Adjustable secure pads will suit any size watchstrap, leather or metal bracelet.
- Watches will not become detached during operation.
- Soft interior materials will not damage watches.
- Virtually silent motors run on batteries or DC adapter.
- Choice of operation modes - fast wind and timed.
- Direction of rotation options - bi-directional, clockwise only, or anti-clockwise only.
- Independent controls for each watch.
- Electrical adapters to suit all countries worldwide
- Sensors ensure that watches always come to rest in the upright position.

## *Finish*

- Craftsman built cases.
- Piano finish with eight coats of lacquer, hand finished to a high polish.
- Metal fittings are either chrome or gold plated with a non-tarnish surface.
- Only genuine leather is used. Interiors lined with soft velveteen to protect watches.

The Optima adjustable clip

Independent control of each pod

Battery and DC input on all models

AC/DC Adapter to suit country fitting

# Perpetua II Satin Walnut

The Perpetua II range of Watch Winders has been updated for the 21st century with new style interiors and fitments.

The Satin Walnut models, illustrated here, are all wood construction, with a walnut veneer finished with several layers of hand applied lacquer to give a luxurious, silky smooth appearance.

Metal fitments (hinges, feet, control panels) are gold plated and the interiors are lined with a soft feel velvet fabric. The watch holders are covered with a soft black leather and adjust to all sizes of watch strap, leather or link bracelet.

W111: Perpetua II Satin ~ Mono

- Motors run virtually silent
- Powered by DC adapter with battery backup
- Direction of rotation selectable
- Fast wind or timed modes

W112: Perpetua II Satin ~ Duo

- Rapport multi watch winders feature independent control of each watch holder

W114: Perpetua II Satin ~ Quad

### Perpetua II Satin

*W122: Perpetua II Ebony ~ Duo*

# Astro Mono Watch Winders

These single Watch Winders have wood cases, painted in a fashionable range of colours and finished with eight layers of hand applied lacquer to give a luxurious, hard, high-gloss appearance.

The thick glass lid has wide bevelled edges. Metal fitments are chrome plated and the interiors are lined with a soft feel velvet fabric. The black leather watch carrier adjusts to all sizes of watch strap, leather or link bracelet.

These winders have a strong contemporary elegance about their design and the precision Optima mechanism will keep your automatic watch accurate and in pristine condition.

- Soft close lid
- High gloss finish
- Motor runs virtually silent
- Powered by DC adapter with battery backup
- Direction of rotation selectable
- Fast wind or timed modes

# Cube MkII

A one watch winder with the Optima drive and watch holder. The case is a brushed aluminium cube with polished metal screws to four sides and the hinged door is fitted with a heavy magnifying glass lens.

**W157** – Cube MkII one watch winder  
Size: 107 high x 107 wide x  
146mm deep

W157: Cube MkII

# Cogwheel

Features a central, brushed aluminium drum turned by a series of polished brass cog-wheels. A magnifying glass window allows a clear view of your watch during operation. The impressive mechanism is mounted on a craftsman constructed wood base finished with eight layers of hand applied lacquer.

**W192** – Optima Cogwheel one watch winder on wood base with polished Ebony finish.  
Size: 185 high x 290 wide x  
170mm deep

W192: Cogwheel Watch Winder

# Cosmic

The Cosmic is one of the most advanced watch winders on the market today with features usually found in more expensive models.

The luxury highly polished cases are available in Ebony or Macassar finishes. Both have grey velveteen interiors, soft leather watch carriers and interior lighting.

An easy-to-read LCD display shows the progress of the winding function. Facilities include:

- Multi-directional rotation
- Turns per day
- Quick-wind mode
- Pre-set modes
- Blue back-lit display
- Timer

*W631: Cosmic – Ebony*

Size: 210 high x 160 wide x 175mm deep

**W621** – Cosmic one watch winder in Macassar finish

**W631** – Cosmic one watch winder in Ebony finish

*W621: Cosmic – Macassar*

# Time Arc

Available in single or double watch configurations the Time Arc has a high-tech futuristic design. The cog mechanism powering the winding heads is contained in a lead crystal glass case with a semi-circular shaped, hinged lid. The edges are trimmed with chrome plated steel and the base is a combination of piano finish ebony and polished steel.

## The Optima Time Arc

**W190** – Optima Time Arc one watch winder  
 Size: 150 high x 230 wide x 290mm deep

**W191** – Optima Time Arc two watch winder  
 Size: 150 high x 340 wide x 290mm deep

W190: Time Arc – Mono

W191: Time Arc – Duo

# Time Capsule

A single watch winder in a futuristic cylindrical design. The Time Capsule consists of a chrome plate finished aluminium tube and visible brass cogs on a heavy bevelled glass base. The hinged door to the watch carrier is fitted with a heavy magnifying glass lens.

*W193: Time Capsule*

## *The Optima Time Capsule*

**W193** – Optima Time Capsule one watch winder

Size: 174 high x 149 wide x 279mm deep

# Optima Walnut Burr

The Walnut Burr range of Watch Winders and Collector Boxes has a refined look that exudes quality and traditional appeal.

These cases are adorned with a genuine Walnut Burr wood veneer. The lids are inset with bevelled glass and are angled to show off the watches to their best advantage. The edges of the lid are finished in Ebony. The final application of a deep gloss lacquer makes these cases fine examples of the cabinetmaker's art.

The interiors are lined with a beige soft-touch velvet material and the watch carriers are covered in soft black leather and are fully adjustable to accommodate virtually any watch.

Size: 185 high x 305 wide x 305mm deep

*W371 ~ Vogue Carbon Fibre Mono*

# Captain's Optima Range

This range has been designed to replicate the style of box that sea captains of old would possess. Their watches were vital for navigational purposes and so had to be kept in pristine condition - thus Rapport were inspired to produce a watch winder with a nautical flavour to keep prestige automatic watches as accurate as any ancient mariner would demand.

The cabinets are hand finished in highly polished Mahogany and have Brass corner protection details, foldaway handles and lock.

The interiors are lined with soft-feel beige velvet, while the watch holders are the leather covered, adjustable clips of the Optima series.

## Captain's Optima

**W271** – Captain's Mono Watch Winder  
Size: 185 high x 190 wide x 165mm deep

**W272** – Captain's Duo Watch Winder  
Size: 185 high x 315 wide x 165mm deep

**W274** – Captain's Quad Watch Winder  
Size: 185 high x 315 wide x 315mm deep

*W271 ~ Captain's Mono*

W274 ~ Captain's Quad

*The detail and quality  
found in these winders is  
second to none*

W272 ~ Captain's Duo

# Serpentine Range

A beautiful combination of high gloss piano finish Ebony and genuine leather with crocodile skin effect embossing. The Serpentine range features delicate curves to the lid and base and has chrome plated corner protection details, decorative escutcheon plate and sturdy turned feet.

The interiors are lined with soft-feel grey velveteen, while the watch holders are the leather covered, adjustable clips of the Optima series.

## The Serpentine

**W221** – Serpentine Mono Watch Winder  
Size: 215 high x 215 wide x 190mm deep

**W222** – Serpentine Duo Watch Winder  
Size: 215 high x 330 wide x 190mm deep

**W224** – Serpentine Quad Watch Winder  
Size: 230 high x 340 wide x 340mm deep

W224 ~ Serpentine Quad

*Attention to detail and high quality materials ensure a touch of luxury like no other*

*W221 ~ Serpentine Mono*

*W222 ~ Serpentine Duo*

# Black Rose

A sophisticated range of watch winders with a luxurious Ebony piano-finish and Rose-gold plated fittings – including a hammered lockable clasp to the front. The top of the winder is thick, smoked glass and the interior is finished in a black, soft-touch velveteen. The watch carriers are covered in a soft black leather as fitted to others in the Optima series.

- Motor runs virtually silent
- Powered by DC adapter with battery backup
- Direction of rotation selectable
- Fast wind or timed modes
- Each watch holder is independently controlled

**W332** – Black Rose Duo watch winder  
Size: 200 high x 305 wide x  
165mm deep

*W331 ~ Black Rose Mono*

**W331** – Black Rose Mono watch winder.  
Size: 200 high x 195 wide x 165mm deep

# Sophisticat *Ebony & Aluminium*

A sophisticated range of watch winders with a luxurious piano-finish Ebony which perfectly compliments the polished aluminium framing around the thick bevelled glass windows.

The interior is lined with grey, soft-touch velveteen while the controls, feet and hinges are chrome plated. The watch carriers are as fitted to the rest of the Optima series.

## *The Sophisticat*

- W261** – Sophisticat mono watch winder  
Size: 190 high x 190 wide x 160mm deep
- W262** – Sophisticat duo watch winder  
Size: 190 high x 300 wide x 160mm deep
- W264** – Sophisticat quad watch winder  
Size: 250 high x 300 wide x 285mm deep

*W261 ~ Sophisticat Mono*

*W262 ~ Sophisticat Duo*

*W264 ~ Sophisticat Quad*

# F3 Carbon Fibre & Aluminium

A contemporary combination of carbon fibre and brushed aluminium with bevelled glass panels.

A grey velveteen lines the interior and the controls, feet and hinges are chrome plated. The watch carriers are as fitted to the rest of the Optima series.

## F3 Carbon Fibre

**W251** – F3 Carbon Fibre mono watch winder.  
Size: 190 high x 190 wide x 160mm deep

**W252** – F3 Carbon Fibre duo watch winder.  
Size: 190 high x 300 wide x 160mm deep

**W254** – F3 Carbon Fibre quad watch winder.  
Size: 250 high x 300 wide x 285mm deep

*W254 ~ F3 Carbon Fibre Quad*

- Each watch holder is independently controlled
- Watch carriers are covered with soft black leather and are fully adjustable to accept any size of watch.

*W251 ~ F3 Carbon Fibre Duo*

# Sector Cabinets

Sector Cabinets are Optima series watch winders, they accommodate six watches and have interior lighting.

The craftsman built cases have thick polished glass panels to the top and base secured by polished chrome decorative studs, and the lockable door has a bevelled glass panel with chrome surrounds.

The interior is a soft grey velveteen, the watch holders are covered with soft black leather and adjust to suit any size watch strap or bracelet.

W256 ~ Sector Carbon Cabinet

**W256** – Sector Cabinet six watch winder in a highly polished Carbon Fibre finish  
Size: 495 high x 300 wide x 160mm deep

- Each watch holder is independently controlled
- Watch carriers are covered with soft black leather and are fully adjustable to accept any size of watch.

*W266 ~ Sector Ebony Cabinet*

**W266** – Sector Cabinet six watch winder finished in piano finish Ebony.  
Size: 495 high x 300 wide x 160mm deep

# Mariner's Chests

Built in the style of traditional Sea Mariners' chests these sturdy watch winder cabinets are fitted with robust, metal corner pieces, fold-away marine-style handles and locking latch. The piano-finish to the wood surfaces exudes a luxurious quality.

There are two or four watch winder models available. The watch holders are the Optima type and have independent controls. Internal lights show off your watches at their very best.

Two inner drawers have compartments to provide storage for four further watches and other jewellery items.

## *Two Watch Mariner's Chest*

**W282** – Two watch winder in piano finish Mahogany and Brass fittings. Beige interior.  
Size: 340 high x 340 wide x 185mm deep

**W292** – Two watch winder in piano finish Ebony and Chrome fittings. Grey interior.  
Size: 340 high x 340 wide x 185mm deep

**W294** – Four watch winder in piano finish Ebony and Chrome fittings. Grey interior.  
Size: 340 high x 450 wide x 185mm deep

*W284 ~ Mariners Chest Mahogany Quad*

# Paramount Macassar

For the serious collector of prestige automatic watches the Paramount range provides practical functionality in an exquisite cabinet. The craftsman built cabinets are finished in fine veneers of either Macassar wood, Ebony or Aged Walnut Burr and the interiors are lined with a soft velveteen material.

Subtle interior lighting is provided to show off the watches at their best.

The door is fitted with bevelled glass and is lockable for added security. An internal, velveteen lined drawer offers static storage for watches on adjustable pads.

Each Optima watch carrier is covered in soft, black leather, is adjustable to take any size and style of watch strap and is individually controlled to ensure watches remain properly wound.

These stylish cabinets are the ultimate automatic watch winders, combining the finest quality materials with precision craftsmanship. Our designers have created the Paramount range to satisfy the demands of the most discerning.

*W532 ~ Paramount Aged Walnut Twelve Watch Cabinet*

*The quality found in the Paramount range is a rare example of the traditional skills of the cabinetmaker*

# The Commander Range

The Commander series is probably the most advanced range of Watch Winders available today. Inside the luxury case we have packed a mechanism with total control over every aspect of the winding cycle. An easy-to-read LCD display shows the progress of the winding function.

Facilities include:

- ◆ Subtle blue LED illumination
- LCD control panel with user selectable:-
  - ◆ Multi-directional rotation
  - ◆ Turns per day
  - ◆ Quick-wind mode
  - ◆ Pre-set modes
  - ◆ Blue back-lit digits
  - ◆ Timer

The cases are of solid wood construction in a piano-finish Ebony. Thick polished glass insets at the top and bottom, a bevelled glass, lockable door and bright chrome fittings complete the luxury look of these winders.

There are one, two or four watch models in the range, all using fully adjustable, black leather clips and Optima drives. An internal light is added which gives a subtle light to show off your watches at their very best.

*"... the most advanced range of Automatic Watch Winders available today"*

W604 ~ Commander Quad

**W601** – Commander one watch winder in piano-finish Ebony

**W602** – Commander two watch winder in piano-finish Ebony  
Size: 240 high x 300 wide x 200mm deep

**W604** – Commander four watch winder in piano-finish Ebony  
Size: 345 high x 300 wide x 200mm deep

W601 ~ Commander Mono

W602 ~ Commander Duo

# Templa Ebony

The Templa Ebony four watch winder is an advanced winder which offers total control of speed of rotation, number of turns and duration. Every aspect of the chosen mode is monitored with the LCD display.

The cabinet is craftsman made and highly polished to a high gloss Ebony piano-finish.

It is fitted with electronically powered, smoked glass sliding doors and the interior is illuminated by an array of LED lights.

The watch holders are fully adjustable and the Rapport Optima drives are powered by a DC adapter with battery backup. Each winding cup is independently controlled.

**W300** – Templa Ebony four watch winder.

Size: 430 high x 295 wide x 200mm deep
